DETERMINE IF MANAGED IT IS RIGHT FOR YOUR BUSINESS

Wondering if Managed IT is right for your business? Review the following statements and select Yes or No.

If you answer **Yes** to at least 6 of these statements, Managed IT Services will help you work more effectively and efficiently while saving your organization money.

YES NO DATA

- ☐ ☐ Only one person can access a particular file at one time
- ☐ ☐ Our company routinely emails large files to employees, clients or vendors
- ☐ ☐ Our company routinely saves multiple (edited) versions of the same document
- ☐ ☐ Our company has sensitive data that would require secure storage
- ☐ ☐ We have lost files due to ransomware, viruses, human error, system issues or natural disaster
- ☐ ☐ It is difficult to remotely access our company's data, applications and services

INFRASTRUCTURE

- ☐ ☐ We are reaching the maximum storage limit on our internal server or current cloud storage
- ☐ ☐ We experience slowness or network-related performance issues
- ☐ ☐ We have not completed an IT assesment in the past 18 months
- ☐ ☐ We are concerned about security and whether our IT environment is protecting us from the latest threats

YES NO ORGANIZATIONAL / FINANCIAL

- ☐ ☐ Our company has multiple locations
- ☐ ☐ Many of our employees work remotely or would like to
- ☐ ☐ Our company is growing, but we are unsure if we have the resources/IT environment to scale
- ☐ ☐ Our company has limited IT resources
- ☐ ☐ Our employees spend time dealing with computer or IT issues rather than focusing on their priorities
- ☐ ☐ Our IT budget is often being over-spent on in-house maintenance, storage, hardware and licensing
- ☐ ☐ We utilize applications to operate our business (CRM, planning, accounting, analytics, logistics, etc.)
- ☐ ☐ We have lost revenue or upset clients/vendors because of our lack of ability to mobilize our workforce
